GRAPE EXPECTATIONS
The experts share the best ways to give your room a marsala makeover

"Marsala is a subtle colour close to the muted shades of the earth. One colour that works best with marsala is green. If you wish to incorporate it at home, there are many variations of marsala available—such as in the new fabric collection by Rubelli and the bathroom tiles from Normandy Ceramics. You can also opt for the carpet collections by Philippe Parent Studio or Diacasan."
—Isabelle Verthes, founder, My Tailor Home

"Marsala adds warmth and a rich, glam look to any room. The colour can be used aesthetically in homes in the form of rich silk drapes or a textured weave for upholstery. You can add a marsala accent by throwing in marsala cushions in chenille, velvet or raw silk. A marsala armchair in the living room adds a majestic, edgy look to the decor. Use marsala linen if your house has a black, white or grey theme. The colour also teams well with neutral shades like beige, ivory, pale yellow, pastels and khaki."
